The adhesive envelopes must be gummed an inch each side of the centre of the lappels.

By the act approved June 17, 1844, the Secretary of the Senate is "directed to confine his purchases exclusively to articles of the growth and manufacture of the United States, provided the same can be procured of such growth and manufacture of suitable quality, and at reason-able prices, upon as good term; as to quality and price as can be obtained of toreign growth and manufacture." A preference will therefore be given to the productions of American industry;

No.67. 6 dozen cut-glass sandstands, 15 inches quantities during that session, or for any subse-

quent session of Thirty-seventh Congress.

A sufficient specimen of each article proposed for (of paper half a quire, and of covelopes 25) is to accompany the proposal, and to be marked with the name of the proposer, and the price of the article, and of paper the weight per ream. The whole of each article specified in the fore-going list will be deemed a class; and the person offering to furnish any such class at the low-est price (quality considered) will receive a contract for the same on executing a bond, with two or more sureties satisfactory to the Secretary of the Senate, for the performance thereof, under a forfeiture of twice the contract price in case of tailure, which bond is to be filed in the office of the said Secretary within ten days after the pro-

posals have been accepted.

If any article contracted for should not be de-livered within the time stipulated, or should be inferior in any respect to the sample, the bond of the contractor will be put in suit. Proposals should be endorsed "Proposals for

Proposals should be endorsed Proposals for Stationery for the Senate, and be directed to the Secretary of the Senate at Washington.

Proposals and specimens must be delivered at the office free of charge.

ASBURY DICKINS,

Secretary of the Senate U. S. apr 23—1aw4w [Star.]

Proposals for Furnishing Mail Locks.

Proposals for Furnishing Mail Locks.

Poor Owner Department,
April 22, 1861.

SEALED PROPOSALS for furnishing mail tooks and keys
of new kinds, to be substituted for the locks and keys
now used on the United States mails, will be received at
this Department until mine o'clock A. M. the teuth day of
July, 1861.

It being desirable to obtain locks and keys of a now construction, and invented expressly for the exclusive use of
the United States mails, no model is prescribed for builders; the
Department rejuging for its selection on the results of
muchanical skill and ingenity which a fair competition,
now invited may preduce. It is deemed uncessary only
to state that a mail lock should be self-tecking, and that its
other principl requisities are uniformity, security, lightness,
strength, that Stig, nossity of construction, and facility of
use.

Two kinds of mail locks and keys—one of brass and the
other of irous-diffurent in form and construction, are required; in all proposals should specify, separately, the price of
each thrus lock, each key for same, each brass lock, and
each brass key for same.

Duplicate samples or patterns of each kind of locks proposed, are required to be submitted with the proposals;
one of each kind of sample locks to be rivested up and finished, and another to be open or unrivested, so that its linternal structure may easily be examined. Every sample
about be plainty marked with the bidder's name.

The locks offered should not be patented, nor should their
internal sountruction be otherwise publicly known, or be
similar to any locks herestoices used; and they must be
warrenated not, in any way, to intringe or interface with any
patented invention.

The various sample locks presented by bidders will be

internal construction be otherwise publicly known, or be similar to any locks herestore used; and they mind be warranted not, in any way, to infring or interfere with any patented invention.

The various sample locks presented by bidders will be submitted to a board of examiners to be commissioned by the Postmaster General, for the purpose of examining and reporting on them; and, unless the Postmaster General shall doesn it to be but the interest of the Department to reject all the proposals and specimens submitted under this advartisement, contracts will, upon the report of the examiners, be entered into, as soon as practicable, with the successful bidder whose locks are adopted, for furnishing similar locks and keys for four years, as they may be required and ordered; with the right, on the part of the Postmaster General for the time being to extend and continue the contract in force for an additional term of four years, to contract with any other party for furnishing similar to different locks and keys, as the Postmaster General may determine. The contractor must be expiration of the first term of four years, to contract with any other party for furnishing similar or different locks and keys, as the Postmaster General may determine. The contractor must agree and be able to furnish, if required and ordered, 9,000 break locks and 600 break keys, within there months from the time of entering into contract, and 20,000 fron locks and 20,000 fron keys, within oright months from such time. But the Postmaster General will reserve the right to increase or diminish, as the wants or interests of the service may demand, the quantities of the locks and keys above specified, with a proportionate allowance of time to furnish them.

All the locks furnished by the contractor must be warranted to keep in good working order for two years, in the ordinary use of the service, when not subjected to obvious violence; such as become discribe, during that time, to be replaced with perfect locks, without charge.

The contractor will

service. In deciding on the proposals and specimens, the Postman is deciding on the proposals and specimens, the Postman ter General may deem it expedient to select the brans look of one biddler and the Iron lock of another. He therefore referred the right of contracting with different individuals for such different kinds of locks as he may select.

M. BLAIR, Postmaster General.

Proposals for Furnishing the Paper for

the Public Printing. OFFICE SUPERINTENDENT PUBLIC PRINT Washington, May

Washington, May 1, 1861.

DYSPEPSIA. INDIGESTION. Weakness or Debility, Flatuloncy and Rausea, Loss of Appetite, Nervousness, Liver Com-plaints, Billous Fevers, and all Diseases of the Stemach, Liver, and Bowels. AS A PREVENTIVE FOR PEYER AND AGUE

THESE BITTERS ARE NOT EQUALLED. W. P. & A. W. GREELEY, Proprietors, Sector

THE OBJECT of all medicine is either to prerent disease, or to assist Nature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform those offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condition alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or exciting the organs into condition resembling healthful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of nervous energy more disastrous than though Nature had

seen left to take its own course. Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonios, and it is a pleasure to the proprietors to state that its usefulness is being generally acknowledged by the largely-increasing consumption in those sections where it is best known, and by the testimony of many eminent physicians, who have not only made trial of it, but continually prescribe the Bitters in those cases for which it is recommended.

AGED PEOPLE, AND ALL WEARLY PER-Consumptive patients, and others, whose con-

stitutions have become impaired by time, or enfeebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in teating lung complaints and kindred diseases, is the fact that they combine many safe and certain bealing properties in connection with the best known stimulant

DELICATE LADIES Will derive great benefit from it. No unpleasant effect will ever result from taking the Bitters, if the directions are followed. For those who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weakness, the Ritters are not equalled. Washington.
All work in the above line intrusted to our

mired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an attack of FEVER and AGUE, or DIARRHOLA. Of all the ills that afflict men and women, few are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Dr. Greener, a specific has now been obtained. Greener's Bourson Bitters take straight

As an agreeable stomachic, it is much ad-

sis, Indigestion, and Fover and Ague, even the most desperate kind, are in the possession of the most desperate and, are in the proprietors.

Not a few people, everywhere, complain of Weakness or Debility. This is the gentle hint of nature for a little help in the way of invigoration. The hint should not be neglected. "A stitch in time saves nine." Get a supply of Gazaatited in time saves nine. Get a supply of Ghan-Lay's Boundon Bittens, take them regularly, and our word for it you will feel better, live longer, be stronger, and think and act with very much more satisfaction. The Bitters are a tonic, and of a nature never before attained in any medicine. It will make the weak strong, the desponding hope-ful, the sick well. For any complaint of the

hold of the disease, and begin a cure. Thou-sands of well-attested cases of cures of Dyspep-

parable with this medicine.

In America, the Liver is the best abused of all the organs in the body. It is made the saidle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly imperative. This need not be; on the contrary, it is quite unnecessary. A little common sense, and a sufficiency of GREELEY'S BOURDON BITTERS, will keep the Lives right, and make man a man, and wo man, now miserable, quite happy. The Bitters regulate and strengthen the Liver, no less than

Stomach, Liver, or Bowels, there is nothing com-

The increase of Nervous Disorders, at the present day, is one of the most alarming indications of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a physe of Nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most efficient manner. All who are unfortunately affileted with complaints of this nature, or with Indigestion, or any dis-eases of the Stomach, should not sail to make use of GREELEY'S BOURDON BITTERS. Chills and Fever. In many portions of the United States this terrible disease seizes its vic-

system in a particular condition invites it. The right medicine to prevent and cure this malady, we unhesitatingly say, is GREELEY'S BUCKEON BITTERS. It breaks up the fever, drives it from the system, and will keep it at bay, if taken in accordance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the constitution. As an agree-able tonic, these Bitters have no equal. Greeley's Bourbon Bitters are meeting a sale unparalleled in the history of popular medicines. In all diseases of the Stomach and Bowels they

tims as naturally as water seeks its level. The

are a sovereign cure. The worst cases of Dyspepsia and Indigestion yield to the remarkable potency of the Bitters, which is as agreeable to the taste as it is speedy and unfailing in its good
